Our Values

Our philosophy is to provide person-centred solutions that maximise the potential of people. This means providing an environment, which makes it possible to work towards overcoming problems. For this to happen we like to provide appropriate support and stimulation to enable independence. This may include support and stimulation for reasonable and monitored risk taking. We also promote the civil and human rights of those in our care, non-discriminatory practices and celebrate individual differences.

Wema Healthcare Services is proud of its atmosphere of mutual respect amongst service users, clients and staff. We have achieved this by upholding the dignity of each individual, providing the highest possible standard of staff recruitment and selection and training and development, which enable employees to further develop their professional and care skills.

What Makes Us Different?

Managed by people who have years of experience within the healthcare sector, Wema Healthcare Services knows what it takes to match the right staff with client's needs. Using our insights into what is required for each individual care requirement, we provide a suitable service to match this.

From the pool of available, qualified, and skilled staff in our database, we will find the right staff for the care or support needs you require. We know how critical these needs are to you and that is why we make it our goal to achieve it.

Our recruitment process is very discerning. We only onboard staff who have appropriate and verifiable references. It is important to us that we provide professional and competent staff which clients can have confidence in with regards to screening, assessment and training.

Although our quality of service and professionalism is of utmost importance to us, it is also vital that we provide affordable solutions. By offering attractive packages to both employees and clients, we keep a balance that does not affect the quality of staff nor your ability to use our services. Our initial trial period delivers the most attractive rates that beat most agencies.

Our Recruitment Standards

What we have always done better than anybody else is to provide the highest quality care staff. We apply internal Quality Assurance Systems, that are continually being improved, during our rigorous hiring process. It is essential to us and our clients that our staff are compliant.

Every candidate that we screen attends a face-to-face interview with our recruitment specialist. This means that only those with the right care experience, local knowledge and awareness are hired. Our staff are handpicked to match the services they need to provide. They have the right qualifications and experience, with many of them having achieved QCF Level 2 or 3.

Your Business Is Our Business

Each candidate or employee needs to go through Disclosure Barring Services (DBS), POCA, SOVA, work history, experience and qualification checks. Wema Healthcare Services also verifies references and health declarations, so that we know exactly who is capable of what and to what level of competence. Ongoing training needs are regularly assessed by us to ensure a high standard of service:

Wema Healthcare Services complies with:

- The Care Act 2014
